Part-Time Faculty Positions Available

Located in Sunnyvale, Cogswell Polytechnical College is a WASC regionally accredited 4-year institution of higher education with a curriculum that fuses art, engineering and entrepreneurship. It has a distinguished over 125-year history in California and has always been associated with best practice in the industries and communities it serves.

Cogswell College offers an intimate and stimulating academic environment that enables its students to earn a Bachelor degree in Digital Art & Animation, Digital Audio Technology, Digital Media Management, Game Design Art, Game Audio Engineering, Digital Arts Engineering or Software Engineering or a Master’s degree in Entrepreneurship & Innovation.

Instructors are needed to teach the following courses in General Education:

**Mathematics:**
- **Intermediate Algebra.** (Preparatory College Math) Intermediate algebra including exponents and polynomials, equations and systems of equations in one and two variables, functions and graphs, and exponential and logarithmic functions.
- **Basic Topics in Mathematics.** (College Math: Precalculus and Trigonometry) Principles and applications of inequalities, functions and graphs, polynomials and rational functions, systems of equations and inequalities, matrices and determinants. Analytic geometry including conic sections. Trigonometric functions, identities, equations, inverse functions, trigonometric applications including vector definition, operations, and dot product. Students are introduced to the basic concepts for computer graphics.

**English:**
- **Grammar and Composition.** (Preparatory College English) Extensive written work stressing spelling, accurate sentence structure, and logical paragraph development. Credit earned does not count toward a degree.
- **English Composition and Critical Thinking.** (College English) This course develops written communication and critical thinking skills. It explores techniques and practices of expository and argumentative writing. Students learn to generate ideas for writing based on readings, learn to organize and support their ideas, and learn to apply techniques of revision to produce polished, professional work. Content, format and correct grammatical structures are emphasized.

**History:**
- **History of the Modern World.** This course explores outstanding political, intellectual, philosophical, military, social and economic trends, movements, and events from the Enlightenment to the present. Major focus is on analysis of the larger forces that have shaped the contemporary world, while the course also examines the role of influential individuals from Anthony (Susan B.) to Zola (Emile).
